

AMMOTECH ANHYDROUS AMMONIA DELIVERY

APPLICATION Softwall hose for the delivery of liquid gaseous anhydrous ammonia. It is particularly used in the processes of production of fertilizers. The operator must be instructed on use and maintenance of the hose for anhydrous ammonia. Failures in service may produce damage to people and property. Periodic inspections and tests allow detection of signals indicating the deterioration of the hoses or the loss of performance, before coming to malfunctions or failures.

MATERIAL
Tube – Black, smooth, anti-static synthetic rubber.
Cover – Black, smooth (wrapped finish), anti-static synthetic rubber, resistant to chemicals, abrasion, ozone and weathering.
Reinforcement – High strength synthetic cord.

COLOUR Black

TEMPERATURE from - 40°C to + 55°C
