

# How can HOME help you?

## LOG IN VIA YOUR PC AND APP

Ausquip will supply you with a login and password to access your portal on the PC and App.

## VIEW HOSE INVENTORY

Easy access to see all the hoses we have supplied. With asset numbers, batch numbers, purchase orders, ship dates and much more.

## SCHEDULING AND REPORTING

Be ahead of the game and know when all your hoses are due for inspection and/or replacement. Ensure all hoses stay compliant and safe. Ausquip will do all the hard work for you when entering the data, you just let us know if and how often you want to be notified.

## LOCATION

Visibility over where all your hoses are currently located, making it easier to access for inspections, replacements and issues that rarely arise. Ausquip will enter the initial location/depot then we will work with you to ensure it continues to be updated out in the field.

## EASY SEARCH FUNCTION

Search via Hose Type, Size, Asset Number, a multitude of other options so all your hose data is only a click away.

## TEST CERTIFICATES

Save time by having easy access to all test certificates. Simply click on an asset and generate the certificate instantly yourself.

## INSPECTIONS

On the spot visibility and compliance checks of your hose anytime via the App. Simply scan the QR or Barcode on your hose and it will show if it's currently certified and allow you to notify us if there is any issues that need investigating!

## EASY RE-ORDER

Reordering is easy via the App or your PC. Once logged in, simply find the hose you would like to re-order, then click on the re-order button on the top right hand side of the screen. Fill in the your order number, quantity, tick include attributes, provide any additional notes and we will notify you once the order is received.
